AMA Teachers Continue To Be Enlightened

To be an accredited school, AMA must meet certain academical and teacher qualifications. The teachers at AMA have always fulfilled these qualifications to the fullest extent. All AMA teachers are graduates of an B.S. Degree. There are many who those who are now completing work

Those teachers having a master degree are Col. W. L. Gardner, Col. Malcom Livick, Col. J. C. McCue, Col. Paul Hoover, Maj. Edwin Hart, Capt. Paul Andrews and Capt. Donald

Prepare Now

For Yuletide

Col. William Parkins, business administrator, has released the following information concerning traveling for the Christmas holidays.

Christmas vacation begins at noon on December 16. Cadets will not have much time to make plane reservations if they expect to fly home. The Business Office advises cadets to find out from their parents how the cadets are to travel. If cadets are to fly and want the school to make the necessary reservations, parents should advise the Business Office immediately. If parents want to make the arrangements themselves, they should submit their requests as soon as possible.

There are always special buses going to Washington, D.C. This is the best and quickest mode of travel to Washington and points North. If cadets are to travel by train, the school will be glad to make the proper arrangements also.

Parents are advised to call their local office of the carrier for price information and schedule. For additional information contact the Busi-

Among the many completed projects is the new J-I Barracks. This barracks was erected on the site of the old one at a cost of \$70,000. Its capacity is 42 students, two academic classrooms, a day boys' room, a parment for the house mother.

Another completed project is the roof on the Big Barracks. This job was done at a cost of \$5,800. Still another project completed this past summer was the installation of a new sewage system at a cost of \$10,000.

Other completed projects are the yearly ones, such as painting, replastering, repairs and resurfacing of the blacktop.

Some of the future plans, though still on paper, include the remodeling of the Big Barracks, six large tennis courts in Lily Valley and a new boiler and water pumps to increase efficiency and production in the heat-

"Mend Poor Record With Good One" Says Col. Gardner, Superintendent

Col. William L. Gardner, superintendent, has been a devoted teacher and superintendent at AMA for many years. He has met and talked to thousands of boys who attended AMA and has helped many boys understand the importance of a clean record. Again he pleads to the '65-'66 corps of Cadets to re-evaluate their past records and to balance the bad record with a worthy one.

Cadets Hear Orator

Mr. Gerhard Schwarzacher, representative for The American School in Switzerland, recently visited AMA to lecture and show movies. He related pertinent facts regarding an interesting and provocative program for education and outlined the functions and purposes of the school and some of its major accomplishments.

He explained to an attendance of twelve boys that his program was for better understanding of European cultural and economic progress. Using Europe as a backdrop, he outlined an exciting curriculum.

"A well-rounded and broadminded citizen is the goal of the school," remarked Mr. Schwarzacher.

Says Col. Gardner, "Gentlemen of the corps, many times I have spoken to you about the permanent record you are making here at AMA, but I

The Cotilion Club decorated the room in the customary Halloween trimmings. The juniors arrived in a wide variety of costumes that almost frightened the spooks.

Games were played, and an apple eating contest was held. Mrs. Livick and Mrs. Simmons served refreshments.

Cadets Invade Harrisonburg

The AMA corps of cadets invaded Harrisonburg, Virginia, but not under military warfare. The corps gathered on the campus of Madison College for the yearly Veterans Day Parade. After the parade the cadets enjoyed town leave from five o'clock until eleven o'clock. A free meal, compliments of the school, was given to each cadet.

Progress demands movement, desire and effort whether it be of a nation, Did You Notice. a state or an individual. Unless there is some maneuverability on our part, we can expect to accomplish absolutely NOTHING.

Like the turtle, we, as students and future leaders of our nation and state, should strive "to stick our necks out a little" to begin this upward swing. If we discover that we are hindered in our learning and studying, we should take an inventory of ourselves. We should uproot and shun our unfavorable study habits and plant new ones which will flourish and mature so that hours spent studying will not be hours of drudgery, but hours which will be fruitful and productive.

To begin this advancement will at first appear a slow process, but the important fact to keep before us is that progress, at first a slow growth, can be made. If discouragement should cross our path, all means should be used to resist it. Remember, if the turtle, as slow as he is, should relinquish his task, he would come to a complete standstill, but, as slow as he is, he never abandons his efforts.

Unlike the turtle, we, once having ascertained our faults and weaknesses, should proceed at a swifter pace, always "checking our compass to keep on

Not one lesson has the turtle taught us but two. First, in order to accomplish anything, we must have desire and make a little effort, and, secondly, once we are on course, we should tread at an expeditious pace.

Extends Council To Parents, Seniors

Capt. John Dekle, guidance counselor, received a letter of advice for seniors and post graduates. This letter is typical advice from any accredited college or university. The following is an excerpt from a letter sent by Providence College, Providence, R.I.

. . . A prospective student and his parents should know well the diverse opportunities and facilities offered by institutions of higher learning in which any interest is evidenced. Our only caution would be that of "realism": do not dream. Face squarely the facts that in some cases you are obviously reaching far above your head - either academically or financially. In the final analysis limit your choices to a minimal number, which can best be determined by taking counsel with your parents, guidance people, teachers and admissions per-

This same advice holds true as to your choice of a special field of study. Do not anticipate that as a seventeen or eighteen year old you are doomed if you are puzzled as to what your future is to be. However, do start thinking more seriously about it, and once again - seek advice. Leave the channels of your mind and will open for both external and internal influences. Do not panic. Grow in seriousness of purpose, but remain relaxed and docile.

READ!!!! Prospective candidates for college are urged most wholeheartedly to broaden their reading outside of class work. At the same time they should cultivate a competence in writing. What does this mean to you? It means that you have to read and to write much more than you have been doing. Such advice may sound almost too fundamental, too prosaic. However, if the foundation for a college career two pillars of strength upon which to build further, nothing other than a

The fall sport season is rapidly coming to a close, but the winter sports season will begin shortly. Up to this point AMA has not had much success in the won-lost column. This is not to say we have not had several fine athletes participating. The boys that have given it all they have in a losing effort are to be highly commended. It is anticipated that three or four boys will be rewarded with some financial aid to go to college and participate in a college football program.

Points of interest are the success of Henley Carter from last year's squad team, playing for the Duke Freshmen; Bob Biddle, a recent visitor on post, playing for VMI Freshmen; Ken Huntley, playing for the fourth ranked junior college in the nation; Dick Crafton, playing freshman football at Austin Peay State College; and Larry Pence, playing a flanker back at Shenandoah College in Winchester. We hope that we can have three or four more boys do as well from this year's squad.

Walter Alston's comment after winning the world series, "We won it strictly on desire and hustle." We could use some of that desire and hustle here at Augusta.

The AMA football coaches select each week two or three players who have done good jobs in that week's game. They are awarded a star to wear on their helmets.

Miss Sherri Johnstone of Richmond, Virginia, has been selected as Girl of the Month by judges consisting of AMA teachers. Her picture was submitted by Cadet Captain Dave Elms.

Miss Johnstone is a graduate of Douglas Freeman High School in Richmond, is nineteen years old and has blond hair and blue eyes. Besides her many other activities while in high school, Sherri was editor of the high school yearbook. She was also a member of the National Honor Society.

Sherri is presently a sophomore at Westhampton College, a tributary of the University of Richmond. She is majoring in foreign languages which she plans to teach, and has been on school in her church.

Judges for the contest were Maj. the Dean's List. In addition to col- Michael Kivlighan, Capt. John Mendlege work, Sherri teaches Sunday elsohn, Capt. John Dekle, Capt. Warren Sawyers and Capt. Paul Andrews.

"Doc" Excells In Journalism, Wins Honors In Photography

Maj. Charles E. Savedge, head of the science department, has been adviser of the Recall since '56. Every Recall since '59 has been rated as top place in every national contest---Medalist at Columbia, All-American at National Scholastic Press, A Plus at National School Yearbook Association and Trophy winner at SIPA. The cover of the '65 Recall won the trophy. Recall '66 is being helped by Miss Joan Crawford, movie actress, and the local Pepsi Cola Company.

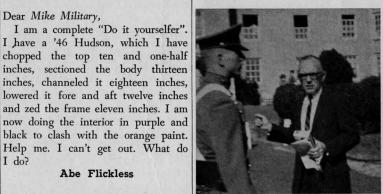

Maj. Savedge has graded yearbooks for SIPA since '59 and has lectured each year at SIPA, which is held at W&L. He has graded yearbooks since '62

for National School Yearbook Association, graded for Columbia Scholastic Press this year and has judged in every category.

He has a lead article in the '65 September Photolith, national journalism magazine, and also a book review. Pictures from the Recall are featured. He is Associate Editor of Photolith.

He had two articles in the Columbia University Bulletin in '65, has also written for Scholastic Editor and has spoken at Columbia, W&L, Newberry College and at the National Con-

Maj. Savedge spoke at American University in September on photography, yearbook covers and printing and also spoke at Columbia in October on headlines, copy and captions.

"Doc", checking Sunday church roll call.

At W&L he won the service award for journalism, which is given every some boys with the Fairfax Hall and Stuart Hall girls. They all tell me they love me, and that I'm cute, etc. invited to speak at Columbia in five years. He has classes at Catholic March and at W&L in April.

> Maj. Savedge takes much price in his present and past editors. He remarked, "One is the son of M. E. Howard and Son Construction Co., Richmond; one is now in Georgetown Medical School (editor for two years); one is a senior in pre-med at UNC; one is a junior at Villanova; one is a Naval ROTC student at Villanova; one is in Medical College of Virginia; Last year's editor, Richard Taylor, is at Tulane and this year's editor, Bob Patton, is an Honor School candidate for West Point."
